BREADTH, SENTIMENT AND THE INDEXES THIS YEAR

03 Under the hood

BRDTH SENT CMP

> SPY moved +0.6% yesterday. An index can rise on a handful of giants, so the question is how many stocks joined in: 29% of them trade above their 50-day line, and the fear and greed gauge tells you how the crowd feels about it.

MARKET BREADTH · THE S&P 1500 AND THE NASDAQ-100

29% of stocks trade above their 50-day line, up from 27% a day earlier; **45%** above the 200-day; new highs minus new lows average **-47** a day over two weeks, so new lows still outnumber new highs; the McClellan oscillator reads **+20** (buying pressure).

About this report. The Daily Tape is generated automatically from Ticker&Tape data: end-of-day prices, ratings and bases from the last close, and after-hours and pre-market prices as of 8:31 a.m. ET. The charts, maps and panels are the platform's own screens. RS Rating ranks 12-month performance from 1 to 99. Ratings, bases and pivots are calculated automatically and can be wrong.
